WORK EXPERIENCE

Software Engineer 2, Epsilon: April 2023 - Present

Roles & Responsibilities:

- Served as **Subject Matter Expert (SME)** for enterprise GenAI upskilling at Epsilon, designing the training curriculum and partnering with an external vendor to develop and refine hands-on lab experiences for 600+ learners.
- **Architected and delivered an AI-powered Code Change Automation Agent** that autonomously handles the software delivery lifecycle for low-complexity tickets, from requirements analysis through code generation, testing, and validation.
- **Architected an enterprise RFP Automation Agent** that transforms client RFPs into structured question sets and generates contextual responses using a federated knowledge layer spanning historical proposals, MCP-based product knowledge systems, and external market intelligence sources.

Associate Software Engineer, Epsilon: August 2021 - March 2023

Roles & Responsibilities:

- Engineered and maintained API services with customized business logic for secure and efficient data exchange, supporting critical client-facing operations.
- Automated recurring engineering and operational tasks, including AWS cost analysis and code review workflows, accelerating delivery and improving productivity.

Awards: Magnitude Award Q3 2024, Quarterly All-Star Award Q4 2022, Multiple **Spotlight Recognitions**

EDUCATION

Bachelor of Engineering in Computer Science and Engineering, Madras Institute Of Technology(MIT), Anna University, Chennai

TECHNICAL SKILLS

- **Programming & ETL Tools:** Python, MySQL, Oracle SQL, PL/SQL, SSIS
- **Data Prep:** Data Preprocessing Techniques
- **ML Frameworks/Lib:** Pandas, Scikit-Learn, PyTorch, LangChain, LangGraph, N8N
- **Vector DB:** Pinecone, ChromaDB
- **AI Techniques:** Retrieval-Augmented Generation(RAG)
- **Cloud Technologies:** AWS
- **Operating Systems:** Windows, Linux
- **Version Control Tools:** VSTS, Git

CERTIFICATIONS & TRAINING

- **AI Engineering Masterclass** (Udemy, April 2025)
- **Machine Learning Specialization** (Stanford University, September 2024)
- **Certified in Cybersecurity** ((ISC)², April 2023)
- **Certified Scrum Master** (Scrum Alliance, June 2022)
